

When You Need to Advance Your Medical Technology, It Takes Avania

To confidently create a MedTech product development plan and seamlessly move from milestone to milestone, it takes a comprehensive specialist with global capabilities. **It Takes Avania.**

Your Global, End-to-End MedTech CRO

Strategic Consulting & Product Development

Hands-on, expert guidance through every stage of the development process to maximize the pre-clinical, regulatory, clinical, and commercial success of emerging MedTech:

- Clinical and regulatory strategy consulting
- Project delivery
- Field clinical management

Data Analytics, Safety, & Compliance

Customized, scalable solutions delivered by experts at the top of their fields to optimize efficiencies and streamline product advancement:

- Data analytics
- Biostatistics
- Safety management
- Regulatory and medical writing

Clinical Operations

Combines industry-leading specialists with comprehensive clinical trial management services to hone and accelerate MedTech clinical trial operations:

- Clinical monitoring
- Late phase project delivery

Market Access & Reimbursement

Delivers winning strategies and thorough, customized support to improve MedTech reimbursement and market access, ensuring commercial readiness:

- Reimbursement strategy and market access
- Patient access and support center services

Your Product + Our MedTech Experience = Efficiency

As your global, full-service partner, our specialized experts work as part of your team to solve your biggest challenges in areas including:

Medical device

Medical technology

Diagnostics

Combination
products

And more

Your Success Starts Here

Your product deserves a MedTech CRO who has what it takes to advance it across the development continuum, maximize its potential, and give you peace of mind every step of the way. It takes specialized expertise, global resources, robust infrastructure, and responsive solutions fit to your purpose. It takes agility, diligence, and passion. **It Takes Avania.**
